School Safety & Technology grant programs

Exploring Grants for School Safety and Technology?

Let's Explore Options and Design the Right Plan — Together

At Spigot Tech Systems, we work with schools to identify needs and design scalable solutions for access control, paging/intercom, video surveillance, and fiber networks. We're here to help however we can and would love to learn more about your needs. Our team can assist with research and planning to help you prepare for upcoming funding opportunities.

Why Partner With Us?

Guidance Along the Way
From exploring options to organizing information and planning next steps.

Plan Ahead
Most 2025–2026 funds are allocated. Start preparing now for 2026–2027.

Illinois & Federal Expertise
We can help your school explore potential grant opportunities.
